The report from the special Sub Committee for Accommodation For the 2011 AGM

The search goes on for a new club meeting location. After talking with Craig, I have just confirmed the response from Australian Industry World about the possible use of their main building is negative. The matter was discussed at length at a meeting of their board and they not keen on letting the space inside after hours. I can confirm that we are permitted to continue to use the building we currently use, but it will "soon" be condemned. They have John's contact details to let us know when this will happen. When I pointed out that our payment is due, and should we pay monthly. The response was, just continue to use it for now and they are not seeking any payment, for which I thanked them on behalf of the club.

The other avenue now being followed up by John is the Illawarra Historical Aircraft Restoration Society may be able to accommodate us and a clubhouse within their premises at Albion Park.

Regards
Les
